THE EPITOME OF TILING

INNOVATION

Italica is a company that was formed in 2004 with the idea of filling the void of excellent quality tiles in India. Over the years, Italica has grown into one of the leading suppliers and distributors of large format wall and floor tiles in India.

Italica has a distribution network that supplies tiles to independent and national retailers not only in the country, but we have also forayed into the international market in the last few years. In addition, our experienced retail sales team is readily available to offer premium merchandising advice and support for showrooms.

Elevate Your Space With, The Beauty Of Stone Surfaces.

Lapato surfaces are renowned for their durability and longevity. They can withstand high traffic, heavy impacts, and temperature fluctuations, making them ideal for both indoor and outdoor applications.

With a wide array of stone types and finishes available, there's a perfect stone surface for every design aesthetic and functional need. Lapato surfaces are relatively low maintenance, requiring only regular cleaning and occasional resealing to maintain their beauty and integrity. They are resistant to stains, scratches, and heat, making them suitable for busy households and commercial settings.

A FUSION OF CRAFTSMANSHIP AND INNOVATION

Crafted through a meticulous process of grinding and glazing, lapato surface tiles boast a distinctive sheen that catches the light and captivates the senses. This fusion of craftsmanship and innovation results in a surface that exudes sophistication while retaining the inherent strength and resilience of porcelain.

Whether adorning the floors of a contemporary living space or gracing the walls of a luxurious bathroom, lapato surface tiles elevate the ambiance of any environment. Their versatile nature allows them to seamlessly integrate into various design schemes, from sleek and modern to timeless and traditional.

What sets lapato surface tiles apart is their ability to create a dazzling visual impact. The glossy or semi-glossy finish reflects light, making spaces feel brighter, more spacious, and infinitely more inviting. Whether bathed in natural sunlight or illuminated by artificial fixtures, rooms adorned with lapato surface tiles radiate with undeniable allure.
